

Filter ND Set (ND 8 16 32 64) PGYTECH for DJI AVATA

Ref: 6970801339002

Filter ND Set (ND 8 16 32 64) PGYTECH for DJI AVATA

PGYTECH set of 4 ND filters (8/16/32/64) for DJI Avata

PGYTECH's ND (8/16/32/64) filters are dedicated to the DJI Avata. They prevent overexposure and provide great color saturation. They are made of aircraft-grade aluminum and tempered glass, resulting in light weight and durability. They take just a moment to install, and special protective coatings protect against damage and repel liquids.

High image quality

ND filters (8/16/32/64) are perfect for capturing water mist or nighttime light trails, for example. They prevent overexposure and are responsible for stunning color saturation. They will also do a great job during video recording. They allow you to shorten the shutter speed, so you can get smooth, cinematic shots.

Robust construction

PGYTECH filters are coated with a multi-layer coating that repels water and grease, making them easy to keep clean. What's more, they are scratch-resistant, so they will last you a long time.

Designed for DJI Avata

Each filter weighs just 1.35 grams, and their frame is made of CNC aircraft-grade aluminum, which as a result will not affect your drone's

flight. What's more, they're corrosion-resistant and a perfect fit for the DJI Avata.

Manufacturer

PGYTECH

Model

P-36B-012

Type

ND 8/16/32/64

Material

aluminum, optical glass

Weight

1.35 g x4

Dimensions

φ22 x 3.6 mm

Compatibility

DJI Avata

Filter effect

Reduction of shutter speed, film - motion blur effect, photography - longer exposure time

Effect on colors

prevention of overexposure, increased saturation/contrast, increased transparency

Number of filters included

4 (ND8 + ND16 + ND32 + ND64)

Price:

€ 64.94

Drones, Accessories, Filters, DJI Mavic, Mini 3 Pro
