

Camera Aluminum Cage PGYTECH for DJI OSMO Action 3

Ref: 6970801339071

Camera Aluminum Cage PGYTECH for DJI OSMO Action 3

PGYTECH aluminum case / protection frame for DJI Osmo Action 3

Take care of protecting your DJI Osmo Action 3 and get more recording options. Made of aluminum alloy, the PGYTECH brand cage is very easy to install and provides convenient access to the camera's ports. What's more, it does not obstruct its magnetic components and allows you to mount it both vertically and horizontally. The case is also extremely lightweight, yet durable.

Thoughtful design

The PGYTECH P-32C-020 frame was designed specifically for the DJI Osmo Action 3 camera, so it fits it perfectly and can provide reliable protection for it. At the same time, the housing is extremely easy to install, and high-grade aluminum alloy was used to make it. In addition, the thoughtful design of the frame means that the camera placed in it can effectively dissipate heat.

Plenty of possibilities

Enjoy convenient operation of the camera. PGYTECH's frame will not obstruct its buttons or magnetic elements, and provides easy access to its ports. So you can use accessories, charge the device or replace the battery without any problems. The housing also offers a 1/4" threaded hole and a cold shoe mount, allowing you to mount additional equipment on the camera, such as lights or a microphone.
