

Powerbank Baseus Adaman Metal, 2000mAh, 2xUSB, USB-C, Light

Ref: 6932172618308

Powerbank Baseus Adaman Metal, 2000mAh, 22.5W (black)

Baseus Adaman powerbank

Now you can conveniently charge your devices wherever you go. The 20,000 mAh Baseus Adaman powerbank supports various fast charging protocols and operates at up to 22.5 watts. It is equipped with a digital display and is lightweight and compact enough to accompany you almost anywhere - even on a plane.

Fast charging

Experience how quickly your devices can be ready for use again. The powerbank supports such fast charging protocols as Huawei 5A SCP, PD 20 W, PD 18 W, PD3.0 20 W QC 3.0, FCP and AFC. This means it can charge a Huawei P30 to 60% and an iPhone 13 to 50% in about 30 minutes. It also allows you to simply charge older devices in a short period of time.

High capacity

The capacity of the device is 20,000 mAh. This means you can use it to charge your iPhone 13 and 12 about 4 times, and your Huawei Mate 40 about 3 times. It doesn't take long to restore the powerbank to full power. The product supports 2-way PD 3.0 + QC 3.0 fast charging, so you'll charge it to 100% in just about 4-5 hours.

Wide compatibility

The powerbank allows you to charge a wide variety of devices such as Samsung, Xiaomi, Huawei and iPhone smartphones, for example. It is also equipped with several ports. It has 2 built-in USB output ports, a Lightning input port, a micro USB output port and a USB-C input/output port.

Built-in display

A small digital LED display makes it easy to use and provides convenient access to some important information. With its help, you can quickly check the battery's percentage charge, as well as the real-time charging voltage and amperage.

Safety of use

The metal casing makes the product not only look extremely elegant, but also extremely durable. Among other things, the powerbank has been protected against overcharging, overvoltage, overcurrent and short circuit. It also automatically adjusts the amperage to the device being charged to protect it from overheating. What's more, Baseus' proprietary BPS technology provides even greater safety for use.

Lightweight and handy

Despite its huge capabilities, the powerbank is really small and lightweight. Its thickness does not exceed 14 mm - you can easily fit it in your purse or even in your pocket. It also meets international aviation standards, which means you can take it on a plane. No matter where you go - the Baseus Adaman powerbank will provide power to your devices almost anywhere.
