Intelligent air quality detector Habotest HT606

Habotest HT606 smart air quality detector.
Take care of the right air quality in your home. The Habotest smart air quality detector will help you do this. The device displays real-time data and takes precise measurements. The display will provide you with the most important information about the HT606's operation, and convenient buttons will make the product easy to use.
Precise measurements
Pollutants in the air are the cause of many diseases, so you should ensure that the quality of the air in your home is at a high level. The device provides precise measurements in real time. Moreover, the detector tests formaldehyde, organic volatiles, temperature, humidity, and benzene.

Simple, convenient operation
The device displays measurement results on a color TFT screen, so you get clear and convenient access to the most important information. In addition, three buttons make it easy to use the detector. You can also turn off the screen's backlight for the night so that it doesn't disturb your sleep.

Durable battery

The Habotest smart air quality detector is equipped with a 2500 mAh 18650 battery, which translates into about 420 minutes of operation on a single charge. Moreover, it ensures safe use and is durable.

Thoughtful design
Habotest HT606 is equipped with an advanced ARM chip, which affects the device's efficient operation and low power consumption. What's more, it has an indicator that uses green, yellow and red colors to indicate good, medium and bad air quality, respectively.

Manufacturer
Habotest
Model
HT606
Color
white
Tested parameters
formaldehyde, organic volatiles, temperature, humidity, benzene
Display
TFT
Power supply
18650 rechargeable battery
Operating temperature
0-50°C
Working humidity
0-90% RH
Purpose
living room, office, school, kindergarten, nursing home, hotel, car
Dimensions
80 x 68 x 146 mm
Weight
207 g
Data recording
1/min
