

## Soap Dispenser ENCHEN COCO 2 (pink)

Soap Dispenser ENCHEN COCO 2 (pink)

Ref: 6974728536094

### ENCHEN COCO 2 Pink Soap Dispenser

Ensure complete hygiene with Enchen. The automatic dispenser will serve you without contact, so you reduce contact with germs to a minimum. The built-in sensor works with infrared and dispenses soap in 0.25 seconds! The device offers two operation options, and the LED indicator will inform you not only of the currently selected mode, but also of the need for charging, which will be facilitated by the included USB-C cable.

### Long running time

The dispenser is equipped with a powerful battery, whose capacity is as much as 1,200 mAh, which means that one full charge allows you to dispense as many as 12,000 servings of soap. The capacity of the soap tank is 420 ml, so you will not be occupied with refilling it too often. It will work great both at home and in public places, such as a hotel or office.

### User-friendly

Extremely durable and safe ABS plastic was used to make the dispenser, so it is resistant to wear and tear. The waterproof class of the dispenser is IPX 4, so you can easily wash it under running water without worrying about damage or rusting.

### Customize the operation to suit your needs

The dispenser offers two modes of operation. With just one click, you can change the amount of detergent dispensed - when the dolphin-shaped LED shines white, the dispenser will dispense the amount suitable for an adult. The blue LED indicates the small portion mode, which will be ideal for younger users. A red dolphin indicates that the dispenser needs to be refilled.

#### Big savings

You'll see how easy it is to save money with the Coco 2 soap dispenser. Just mix soap and water in the reservoir at a ratio of 1:2-6 and shake for the perfect lather, which Coco 2 will give you as soon as you move your hand.
