Powerbank Ldnio PQ11 22.5W 10000mAh (white)

Ref: 6933138700297

LDNIO 22.5W 10000mAh Powerbank

Get the ability to conveniently power your devices wherever you go. The LDNIO PQ11 powerbank features a 10,000mAh capacity and allows you to connect several devices at once. It offers 3 ports (2x USB-A, 1x-USB-C) and supports wireless charging (up to 15W). It also supports standards such as PD and QC3.0. So you can charge your devices in no time!

Hassle-free charging

Enjoy fast charging of your devices. The PQ11 powerbank is equipped with 3 ports - USB-C provides up to 18W output, USB-A1 up to 20W, and USB-A2 up to 22.5W. No longer do you have to wait too long for your smartphone or tablet to be ready for use again! The product also allows inductive charging with up to 15W / 10W / 7.5W / 5W. In doing so, it supports such standards as PD and QC3.0. What's more, with an input power of up to 18W (on the USB-C port), charging the powerbank won't take long.

10,000mAh capacity

Forget about having to charge the powerbank after every use. The PQ11 features a capacity of 10,000mAh, so you can use it even several times before you need to plug it in again. For example, with its help you can easily charge an iPhone 13 about 2.1 times, a Xiaomi Mi 11 Pro about 1.2 times, and a Vivo iQOO 7 about 1.5 times.

For the sake of safety

A built-in smart chip is responsible for the reliable performance of the powerbank. The product is also equipped with a powerful lithium-ion battery and an advanced safety system that protects it from overload, overcurrent, overvoltage, overheating, overcharging and short circuit, among other things. What's more, the housing of the PQ11 model is made of durable, flame-retardant PC plastic.

Tailored to your needs

The powerbank is designed to provide you with maximum comfort. It is surprisingly lightweight and handy - you can easily fit it in your bag or backpack. Take it on your next trip and be sure that your devices won't refuse to serve you at the least opportune moment! The product also has a built-in LED display, which will allow you to conveniently check its charge level. No more wondering when it will be necessary to plug it in!
