Smartwatch Mobvoi TicWatch GTH 2 Black

Ref: 6940447104425

Mobvoi TicWatch GTH 2 smartwatch (black)

Make your daily life easier with the Mobvoi TicWatch GTH 2 smartwatch! The smartwatch features a 1.72" TFT touchscreen display with a resolution of 356 x 400 and allows you to choose from over 100 sports modes. It allows you to monitor heart rate, blood oxygen levels, sleep and body temperature. It provides up to 10 days of battery life, and offers many useful functions such as controlling music or controlling the camera remotely. It is also distinguished by its IP68 water resistance.

Clear touchscreen display

The large, high-resolution TFT display will make it easier for you to operate the smartwatch and provide easy access to its most important functions. The 2.5D curved glass guarantees a clear and readable image in all conditions. Using the dedicated app, you can customize the appearance of the screen, choosing from more than 120 available dials or uploading your own photo!

More than 100 sports modes to choose from

The TicWatch GTH 2 smartwatch will be the perfect companion during your workout! The device offers more than 100 different sports modes, i.e. interval training, volleyball, sailing or yoga. It continuously informs you about the number of steps, distance covered or calories burned. Get in top shape with the TicWatch GTH 2!

Your health assistant

One touch is all it takes to know your most important health parameters! The smartwatch monitors heart rate and saturation up to 24 hours a day. What's more, the device charts your highest and lowest heart rate each hour. Temperature measurement is also at your disposal, with an accuracy of 0.1°C. When your body temperature is over 37.3°C, the smartwatch will notify you immediately.

Take care of your sleep

With the Mobvoi TicWatch GTH 2 smartwatch you will improve the quality of your sleep. The device accurately tracks the stages of your sleep throughout the night - recording the duration of awake, light and deep sleep, as well as the REM phase. Analyze the detailed data available in the app, eliminate bad habits and enjoy a restful sleep every day!

Even more possibilities

Experience how even more the GTH2 smartwatch can make your daily life easier. The watch allows you to make phone calls conveniently, you don't even have to take out your smartphone! It also allows you to control your music player or take photos from a distance. It also offers relaxing breathing exercises and a smart voice assistant - all from your wrist!

Up to 10 days of operation

Enjoy a long runtime. The powerful 260 mAh battery allows up to 10 days of operation on a single charge. If necessary, you can easily restore the energy in it with a special cable with a magnetic connector, which you will find in the set. It won't take you long to charge the watch - it will be ready for use again after about 2 hours.

Created with the user in mind

The comfortable and extremely lightweight design of the smartwatch will provide you with unparalleled comfort during use - you won't even feel that you have it on your hand! It is also distinguished by its IP68 water resistance - so you don't have to take it off when washing dishes, doing an intense workout or as you leave the house in rainy weather.
