MOFII MD3M Mouse (beige)

MOFII M3DM is a cute wireless mouse in the shape of a cat. It will be ideal for people who appreciate original design of devices. It will also be a suitable choice for children. It allows 3-stage resolution adjustment up to 1600 DPI and is very comfortable to use. The device connects to a computer in the 2.4G band and via Bluetooth 4.0, and it only needs one AA battery (included) to power it.

3-stage DPI adjustment

The MOFII M3DM mouse is perfect for a variety of applications - you can successfully use it for casual Internet browsing, photo processing or even playing dynamic games. The device allows you to adjust the resolution in the range of 800 / 1200 / 1600 DPI, so you can easily adjust it to your habits. Ensure your dream speed and precision!

Reliable wireless operation

The kit includes a small USB receiver that allows you to connect the mouse to your computer in the 2.4G band. You can also connect the M3DM model to a compatible device via Bluetooth 4.0. Enjoy fast, stable transmission and forget about delays! What's more, you'll only need one AA battery to power the device, which can provide a long runtime. Inside the mouse you will also find a practical compartment for convenient storage of the receiver - no more worrying about losing it!

### Delightful design

The M3DM model is also distinguished by its original design - the shape resembles an adorable cat. Thanks to this, it is sure to appeal to many users! The mouse is also characterized by an ergonomic design - it lies perfectly in the hand and does not strain the wrist. Noteworthy is also the quiet buttons of the device - you can freely use it at home, in a cafe or in the library, without worrying that you will disturb someone!
