

Remote Control SwitchBot Remote

Remote Control SwitchBot Remote

Ref: 850007706074

Remote Control SwitchBot Remote

Make it easy to operate your devices from the SwitchBot ecosystem. The dedicated Remote Control SwitchBot Remote is equipped with 2 buttons to which you can easily assign the functions you want - just use the app. The product is very easy to set up and features a long Bluetooth range. Put it somewhere within your range and comfortably control the equipment of your choice!

Wide compatibility

The remote control is compatible with many devices from the SwitchBot ecosystem. For example, it works perfectly with the SwitchBot Bot switch and SwitchBot Curtain systems. If you're looking for additional remote control capabilities or don't want to control your devices with apps or voice commands, this will be perfect for you!

Created for your convenience

Enjoy convenient control of your devices. Simply place the remote control in some easily accessible place - for example, on a table or dresser. The product supports long-range Bluetooth connection, so you can freely use it anywhere in your home. Don't be afraid of signal quality problems! The device is also very simple and convenient to use, and you only need one CR2450 battery (included) to power it.

Customize it to your needs

The remote control is equipped with 2 buttons that you can program in the way you want. Make one of them allow you to turn the SwitchBot Curtain system on and off, and the other will be used to control the SwitchBot Bot switch responsible for controlling the lighting. The possibilities are truly vast! Now you can have everything you need at your fingertips.
