USB to USB-C cable, Mcdodo CA-1922, 6A, 1.2m (blue)

USB to USB-C cable, Mcdodo CA-1922, 6A, 1.2m (blue)

Charge your device quickly and safely. The Mcdodo cable uses 66W of power, and the USB-C port makes the product compatible with most devices from popular brands. What's more, it's equipped with a smart LED display that indicates charging power. In addition, the silicone finish ensures durability.

Fast charging, data transfer

The Mcdodo cable offers 66 watts of power and automatically adjusts it to the connected device. As a result, it only takes about 30 minutes to charge the Huawei Mate 40 Pro to 62% and the OPPO Reno4 SE to 100%. Besides, you can use it to transfer files at 480 Mbps.

Safety of use

The product uses MSC technology and is equipped with a dual chip that controls the charging process and protects the connected device from damage. What's more, it has overheat protection, is flame resistant and ensures stable charging.

Durable design

The cable has passed a number of tests for durability, so you can be sure that it will serve you for a long time. It is resistant to bending and cracking. What's more, it doesn't get tangled, and the included strap will make it easy to store. In addition, thanks to its silicone

finish, it is water resistant and environmentally friendly.
