USB to USB-C cable, Mcdodo CA-2091, 6A, 1.2m (orange)

USB to USB-C cable, Mcdodo CA-2091, 6A, 1.2m (orange)
 The Mcdodo cable uses 100W power to quickly renew your device's energy. It is equipped with a dual chip that affects charging speed and protects your equipment from overheating. It also allows you to transfer data at 480 Mbps. What's more, the gold-plated plug is durable and resistant to oxidation, and the transparent finish gives the product a unique touch.

Fast charging, data transfer
 You no longer have to wait indefinitely for your device to charge. The cable supports QC4.0/3.0/2.0, SCP fast charging protocols, which means that in about 30 minutes you will fully renew the energy of Honor 70 Pro Max or charge Huawei Mate 40 Pro up to 86%. Besides, you can use it to transfer files at 480 Mbps.

Safe charging
 Don't be afraid of damaging your device when using the CA-2091. The use of Mcdodo's proprietary MSC technology and dual chip allows you to control the charging temperature and speed, making it completely safe to use.

Thoughtful design
 Another advantage of the product is its robust construction. The cable has passed a number of tests and is resistant to wear, cracking and oxidation. Moreover, the transparent finish gives the product an original touch. In addition, the CA-2091 works with devices from brands such as Huawei, Honor and Xiaomi.
