USB to Lightning Cable, Mcdodo CA-6410, Spring, 1.8m (Black)

USB to Lightning spring cable, Mcdodo CA-6410, 1.8m (black)

Ensure convenience when charging your phone! The Mcdodo Omega spring cable is sure to make your daily use easier. It supports 2A fast charging and works great with Apple devices. Thanks to its springy design, it doesn't get tangled and doesn't take up much space. In addition, it is equipped with a functional LED light.

Fast charging technology

Instantly charge your smartphone and save precious time! Mcdodo cable, thanks to the use of a high-tech chip, charges up to 50% shorter than other cables. What's more, it supports fast charging and provides up to 2A of current. You can freely charge Apple-branded devices with it - it is compatible with iOS 9 / 10 / 11.

Convenient storage

You no longer have to tire of untangling the charging cable! Omega cable, thanks to its spring-loaded design, does not tangle. The flexible design allows you to extend the cable up to 1.8 meters. What's more, it doesn't take up much space on your desk or table - you can even put it in your pocket without any problems.

Practical details

You can easily find the charging cable even in the dark. The cable is equipped with a practical LED that emits a soft green light. This will allow you to easily locate the cable in your purse, backpack or a dark room.

Safe charging

You don't have to worry about overcharging your phone. The cable uses smart charging technology, which adjusts the charging power to the connected device. In addition, 7 levels of protection effectively protect your phone from damage. In addition, the specially designed connection of the cable to the plug prevents breakage.
