USB to USB-C cable, Mcdodo CA-7461, 1.2m (black)

The Mcdodo cable enables QC 4.0 fast charging and supports 2.4A. It also allows for lightning-fast file transfer speeds of up to 480 Mbps. It is compatible with a range of devices and is distinguished by its durable and wear-resistant design. It will be perfect for use at home, work or university.

Instant charging

Even faster charging. The Mcdodo cable allows you to quickly charge your devices at 2.4A. It also supports the QC 4.0 fast charging protocol. Thanks to this solution you will renew energy in your equipment in just a few moments. You'll use it to charge your smartphone or wireless headphones, among other things.

Fast data transmission

The product not only allows fast charging, but also instant data transfer. In just about 1 second you will transfer as many as 50 photos between selected devices. All this thanks to the speed of 480 Mbps. You no longer have to wait indefinitely to transfer music, videos or necessary documents!

Durable and resistant

The cable is made of durable nylon braid, which is characterized by resistance to wear and tear and mechanical damage. In addition, the end of the cable has been additionally reinforced - so you can be sure that it will serve you for a long time. The high-quality copper cable ensures stable and fast transmission, and the advanced chip intelligently manages charging parameters, protecting your device from overcharging.
