

## Habotest HT60 Gas Leak Detector

Habotest HT60 Gas Leak Detector

Ref: 5905316141001

Habotest HT60 gas leak detector

The Habotest HT60 gas leak detector detects different types of gases and provides precise measurement. It is equipped with a dual alarm: light and sound, and thanks to its lightweight and compact design, it will work well in various applications. What's more, it's powered by 2 AAA batteries, which you'll find included.

2 types of alarm

The device uses 2 types of alarm: audible and light - so you will know about the danger immediately. When the detector detects a gas leak, the device will vibrate, you will hear a beep, and the LCD display will show the gas concentration.

Precise measurements

The Habotest HT60 gas leak detector provides accurate measurements. It is ready for use after about 30 seconds, and has a response time of 5 seconds. Moreover, it is equipped with a solid-state sensor, which is responsible for the product's precise operation. The device detects gases such as methane, propane, butane and carbon monoxide.

Handy design

The Habotest HT60 is distinguished by its lightweight and handy design. In addition, the detector is equipped with a special clip, with

which you can easily attach it to your pocket. It will find its use at home, in the factory or at the gas station.

Included

gas leak detector

AAA x2 batteries

instruction manual

Manufacturer

Habotest

Model

HT60

Range

0-1000 PPM

Gases detected

Combustible gases

Accuracy

≤10% FS (methane)

Sensitivity

<50 PPM (metan)

Response time

<2 s

Start-up time

Approx. 30 s

Display

LCD

Alarm

Visual, audible, vibration

Automatic shutdown

Yes

Low battery indicator

Yes

Power supply

2x AAA 1.5V batteries (included)

Dimensions

170 x 23 x 28 mm
