

Adapter for sensors Jack to RJ9 Sonoff AL010

Adapter for sensors Jack to RJ9 Sonoff AL010

Ref: 6920075778076

Sonoff Jack to RJ9 Sensor Adapter AL010

The Sonoff AL010 adapter allows you to connect sensors that have a 2.5mm jack connector to newer models of Wi-Fi relays, such as TH Origin (THR316 / THR320) and TH Elite (THR316D / THR320D), which are equipped with RJ9 4P4C connectors. This allows you to freely use temperature and humidity sensors (Si7021 and AM2301), a waterproof temperature sensor (DS18B20), and a soil moisture sensor (MS01). Say goodbye to limitations and enjoy the many possibilities the AL010 offers!

Manufacturer

Sonoff

Model

AL010

Compatibility

TH Origin (THR316 / THR320), TH Elite (THR316D / THR320D), Si7021, AM2301, DS18B20, MS01
