Ref: 4710343793717

Computer Fan Darkflash CL12 LED (120x120) (pink)

Darkflash CL12 LED Computer Fan (120x120)
Provide your computer with optimal working conditions. The powerful Darkflash CL12 fan guarantees efficient cooling and is also characterized by LED illumination. Its design is based on low noise level and easy installation. Opt for a combination of functionality and convenience!

Optimal cooling
Darkflash CL12 offers an RPM of 1200 and an airflow of 52.46 CFM. It cools your PC components perfectly, providing the necessary protection and optimizing performance.

LED Backlighting
The fan is equipped with LED lightning, so that it is the perfect complement of a transparent PC case. With CL12 you do not only rely on functionality, but also on visual values.

Clever Design
The CL12 is designed for simple and intuitive installation. It features high-quality bearings that securely mount the fan and prevent unnecessary vibrations. The design also benefits from stands that effectively reduce noise levels. With Darkflash you gain comfort and
