

USB to Micro USB cable Romoss CB-5 2.1A, 1m (gray)

Ref: 6973693493463

USB to Micro USB cable Romoss CB-5 2.1A, 1m (gray)

Romoss CB-5 2.1A USB to Micro USB cable, 1m (gray)

Get the ability to charge your micro USB-enabled devices faster. The Romoss CB05 USB to micro USB cable provides a current of up to 2.1A and a transmission speed of up to 480Mbps. So you can charge your equipment and transfer the files you need in no time! The product is also extremely durable and resistant to damage.

Universal compatibility - hassle-free charging

The CB05 cable is compatible with most devices equipped with a micro USB port. For example, it will work perfectly with older smartphones and tablets, flashlights, desk fans or Bluetooth speakers. What's more, with up to 2.1A, it will allow you to charge your chosen equipment in a very short time.

Robust design

Bet on the highest quality workmanship. The CB05 cable was created from extremely durable materials, making it very strong and resistant to damage. Even repeated bending will not pose much of a threat to it! This practical accessory will serve you well for a long time.

Fast data transfer

Do you often transfer files between devices? Use the CB05 cable and save time! The accessory allows you to enjoy transmission speeds of up to 480Mbps. This will allow you to copy all the documents, photos, music and even movies you need in a few moments. No more endless waiting!
