

Wireless charger XO WX025, 20W

Wireless charger XO WX025, 20W

Ref: 6920680879359

XO WX025 20W dual wireless charger (black)

Now charge your devices conveniently. The XO wireless charger allows you to renew energy in two devices at the same time. It's maximum charging power is 20W and is compatible with a range of devices that have inductive charging.

Charge 2 devices simultaneously

Save your time by charging 2 devices at the same time! The XO wireless charger allows you to renew energy in up to 2 devices at the same time. So you can freely power your smartphone and watch at the same time! The maximum charging power on both sides is 10 watts.

Smart technology

The device is equipped with advanced Qi wireless charging technology, which automatically starts charging when you put your smartphone on the charger. What's more, it intelligently detects metal objects, such as keys, ensuring safe use.
