

Wireless inductive charger XO TK20 with stand 15W (black)

Wireless inductive charger XO TK20 with stand 15W (black)

Ref: 6920680829378

Induction wireless charger, stand XO TK20 15W (black).

Opt for a wireless solution. The XO TK20 induction charger allows you to quickly charge Qi-compliant devices with up to 15 watts of power. A number of safety features effectively protect your device from damage. You can also freely place your smartphone both vertically and horizontally.

Fast device charging

The XO charger supports fast charging with up to 15 watts of power and works with devices that are compatible with Qi standards. What's more, the product will also work perfectly as a stand. You can easily place your smartphone both vertically and horizontally! Enjoy the convenience while watching your favorite series or movies.

For the sake of safety

You don't have to worry about your devices while charging. The charger is equipped with a smart chip that automatically adjusts the charging values to your device. What's more, a number of safety features effectively protect against overloading, overheating, overcharging or overvoltage.

Carefully thought-out design

The device is made of durable material that is resistant to wear and tear - so you can be sure that it will serve you for a long time. The charger is extremely small, so it won't take up a lot of space, for example, on your desk. Also noteworthy is the modern, minimalist design, which makes the device fit perfectly into any interior.
