

Powerbank with wireless charging Romoss WS05, 5000mAh, Magsa

Ref: 6973693499212

Powerbank with wireless charging Romoss WS05, 5000mAh, Magsafe (white)

Powerbank with inductive charging Romoss WSS05, 5000mAh, Magsafe (white)

Make sure your devices are always ready to go. The Romoss WSS05 powerbank with 5000mAh capacity allows both wired and wireless charging, so you can renew the power of 2 devices at the same time. The product features a magnetic and compact design. In addition, it provides a number of safety features, supports PD20W technology and you can bring it on board a plane without worry.

Small size, big power

Despite the fact that the Romoss powerbank is compact, it stands out with an impressive 5000 mAh capacity and supports PD20W fast charging (with cable). The product is designed with the iPhone 12 and 13 series in mind, and the WSS05 model can renew the iPhone 12's energy about 12 times before it needs to be plugged in for charging itself. What's more, the powerbank charges instantly - 30 minutes is enough for the iPhone 12's battery level to reach 50%.

Wireless charging

The WSS05 model is distinguished by a magnetic force of 1800 Gs. What does this mean in practice? You can attach the powerbank to your device without worry and enjoy wireless charging with a maximum power of 15 watts. Thanks to the magnetic design, you can rest assured that the powerbank will stay firmly in place. You can also easily connect another device to the WSS05 while charging wirelessly. The time it takes to charge the powerbank alone is about 1.2 hours.

A number of safety features

Care has been taken to ensure that the use of the powerbank is completely safe. The WSS05 is equipped with an ALT chip, which is used in Apple devices. In addition, the product provides protection against overcharging, overvoltage, short circuit and more! You will be informed about the level of charge of your devices by the corresponding indicators.

Attention to detail

Thanks to the fact that the Romoss powerbank is the size of a credit card, you can easily fit it in your pocket or put it in your bag and take it anywhere - even on a plane! The device meets international airline standards. It is also stylish, and its texture is pleasant to the touch. As you can see - everything has been taken care of!
