Backpack PGYTECH OneGo Air 25L (obsydian black)

Ref: 6970801338852

PGYTECH OneGo Air 25L Photo Backpack (black)

The PGYTECH OneGo Air 25L photo backpack is great for a variety of uses, such as travel and work. The backpack is equipped with numerous compartments that will provide you with convenient access to your property and allow you to organize your space sensibly. It opens from almost all sides, so you will enjoy easy access to all your belongings. What's more, the zippers guarantee effective protection against theft. The product is not only functional, but also very stylish. Take a trip with OneGo Air!

Take everything you need with you

The design of the OneGo Air backpack means that you don't have to limit yourself and can comfortably take the necessary equipment with you. With a capacity of up to 25 liters, the backpack features a compartment for your laptop and iPad, as well as smaller compartments and pockets to safely and conveniently store your gear, accessories and small items. The backpack offers specially designed pockets for batteries and a compartment for a bottle. You can even easily move a folded tripod by securing it with straps.

Customize the backpack to fit your needs

The modular design and customizable interior allow you to adjust the space in the backpack to suit your situation. What's more, side pockets provide quick access to the items you need. You can fully open the front of the backpack when needed. Since you can easily open its sides as well, you can instantly reach for your camera and take a unique photo. With the OneGo Air, everything you need is at

your fingertips!

#### Unparalleled user comfort

When designing the OneGo Air, the focus was not only on functionality, but also on convenience. The magnetic closure allows you to open and close the backpack efficiently. You can also easily attach it to a suitcase or travel bag. Its weight is only 1.55 kg, so it will not be an unnecessary burden. The backpack's wide shoulders and an additional strap that allows you to fasten them together add to the feeling of stability and comfort.

#### High-quality materials

The product is waterproof and you can take it on a mountain trip without any worries. It was created from durable and wear-resistant materials, such as PU, so it is sturdy and you will use it for a long time. The back of the backpack is made of EVA material, which makes it more comfortable to carry. Safely and comfortably store your items in the OneGo Air!
