

Somoreal SM-OLT2 LED solar lamp

Somoreal SM-OLT2 LED solar lamp

Ref: 5905316141414

Somoreal SM-OLT2 outdoor LED solar lamp

Create a dreamlike atmosphere in your garden with the Somoreal SM-OLT2 LED lamp. The device provides illumination from 700 to 1,400 lm and guarantees IP65 water resistance. It supports three modes of operation and comes with 5 rotating heads, so you can easily adjust it to your expectations. The lamp has a motion sensor, two rechargeable batteries with a capacity of 1200 mAh each and is suitable for extreme weather conditions. A solar panel allows charging during the day. A remote control is included.

Light up your garden

Wrap your garden in the warm light of the SM-OLT2 lamp! The device is equipped with 214 LEDs, of which 106 are white LEDs and 108 are warm LEDs. As a result, you will enjoy an eye-friendly light with a brightness of up to 1400 lm and a color temperature in the range of 3000 / 4500 / 6500 K. Ease of operation is provided by a remote control, which allows you to adjust the color temperature, select the operating mode and set a timer.

Freely adjust the position of the lamp

You decide the position of the Somoreal lamp! The SM-OLT2 is equipped with 5 movable heads that allow you to conveniently adjust and expand the area that gets illuminated. With a five-sided light stream, you don't have to limit yourself. Conveniently illuminate any place in your garden!

Automatic light switching

The SM-OLT2 model is equipped with a motion sensor so that the bright light will automatically turn on as soon as someone's presence is detected and turn off after 15 seconds. This allows you to safely walk home after dark. The Somoreal lamp will light the way especially for you! The device is distinguished by a range of up to 5 m and a detection angle of 120°.

Three modes of operation

Freely use the most suitable mode of the Somoreal lamp for you! The first mode provides light production of medium brightness for 4 hours. After this time, the device switches to induction mode. The next mode will illuminate your garden with low-intensity light. When motion is detected, a bright light will be turned on for 15 seconds. The last mode is an off light, which turns on when motion is detected.

Ready to work in all conditions

Regardless of the weather conditions, you can mount the Somoreal lamp outdoors without worry. The device is suitable for temperatures ranging from -20° to 60°C. What's more, it is distinguished by its IP65 water resistance, so rain is not a threat. The product is made of durable materials, such as ABS and PC.

Solar energy

Say goodbye to high electricity bills and enjoy free solar energy! The SM-OLT2 is equipped with two rechargeable batteries - each with a capacity of 1200 mAh. Worried about how you will charge the device? Don't be! The lamp has a solar panel, so the sunlight is enough to charge it.

Included:

Outdoor solar lamp x1
