

Smart Soil Moisture Sensor Blitzwolf BW-DS04

Smart Soil Moisture Sensor Blitzwolf BW-DS04

Ref: 5905316141407

Blitzwolf BW-DS04 smart soil moisture sensor

Get access to vital information with the Blitzwolf BW-DS04 sensor. The device monitors temperature and soil moisture levels in real time. You can check the measurements in a dedicated app. The BW-DS04 is distinguished by its IP67 water resistance and provides a reliable range of up to 50 meters. The sensor is powered by 3 AAA batteries (not included). Moreover, for proper operation of the sensor you need a smart irrigation kit: 433 MHz valve + app control hub (not included).

Wide measurement range

Forget about limitations and enjoy the many possibilities that the BW-DS04 sensor provides. The device allows you to measure temperature from -10°C to 50°C and humidity from 0% to 100%. You can check the real-time dimensions from the app.

Rugged and powerful

Thanks to its IP67 waterproof rating, you can freely leave the sensor outdoors. The probe is made of stainless steel, making it highly durable. The device provides reliable operation at a distance of up to 50 meters with a frequency reaching 433 MHz.
