

## Orico Type-C 5in1 HUB Multifunction Docking Station (silver)

Ref: 6941788814653

Orico Type-C 5in1 HUB Multifunction Docking Station (silver)

Orico USB-C, HDMI, 2xUSB (silver) 5-in-1 HUB docking station.

Make your daily work easier. Orico's 6-in-1 docking station is equipped with 5 ports - 2x USB 2.0, USB 3.0, HDMI and USB-C PD, which you can easily use at the same time. It offers high-quality 4K@30Hz video and fast PD charging with up to 100 watts of power. It also enables data transfer at 5 Gbps. It is extremely lightweight and compact, so you can take it with you anywhere.

**Increase your immersion level**

Now you can comfortably watch your favorite movies on the big screen. The adapter allows you to display the image on a TV or projector, for example. You can enjoy a crystal clear and rich in detail image in 4K@30Hz quality. Hub will be perfect not only at home, but also at work or university.

**Fast charging and data transmission**

The docking station will allow you to restore power to your smartphone, tablet or even laptop in no time. It offers fast PD charging with a power of as much as 100W. However, that's not all! Using the USB 3.0 port, you can transfer files at speeds of up to 5 Gbps in no time.

**Wide compatibility**

Compatibility problems are a thing of the past! The adapter is compatible with a range of devices that are equipped with a USB-C port.

You will use it, among other things, to increase the capabilities of your tablet - you can successfully use it to connect a mouse or keyboard. It will also be great for transferring files from a flash drive to a smartphone. It works with Windows, Linux, Mac OS, Android and iOS systems.

#### User-friendly

The lightweight and handy design makes the hub a great companion on the go. It will easily fit into your bag or backpack, so you can take it with you anywhere. What's more, the adapter is made of durable aluminum alloy, which effectively dissipates heat. In addition, it is equipped with a blue light indicator that informs you about the status of the device.
