TELESIN 2nd gen remote selfie stick w. tripod (130cm) TE-RCSS-003

Selfie-stick with tripod 1.3m remote control Telesin TE-RCSS-003.

Make it easy to create original shots. The Telesin TE-RCSS-003 is a practical selfie stick that can also act as a tripod. It unfolds to a maximum length of 1.3m and is distinguished by its wide compatibility. High-quality materials were used to make the accessory, making it very stable and durable. You will also find a small remote control included, which allows you to remotely control your phone's camera or camcorder.

The selfie stick you need

Do you want to take the perfect selfie against a mountainous landscape? Or maybe you care about fitting a whole group of your friends in the frame? Selfie stick Telesin will let you do it! You can adjust its length in the range of 24.5-130cm, making it perfect for different situations. What's more, when folded, the accessory becomes so compact that you can easily fit it in your backpack and take it anywhere you want!

Stable tripod

The accessory will also come in handy when recording vlogs, tutorials and more. You can unfold its legs at any time, thus turning it into a practical tripod. Thanks to the improved design and the use of high-quality materials, the product is extremely stable and durable. It will

work great on various surfaces - both on a level floor and on grass.

Remote control included

The included remote control will allow you to remotely control the tripod-mounted device. It will work perfectly in conjunction with a smartphone or selected models of sports cameras. With its help you can easily take a photo or record a video, and in the case of GoPro Hero you can select the mode of operation, for example, timelapse. The remote control connects via Bluetooth and has a range of up to 40m.

Multiple uses

Create an interesting travel report, prepare a makeup tutorial or record a sports training proposal - the selfie stick with tripod will come in handy in any of these situations and more! The accessory allows you to adjust the position of the smartphone placed on it - you can easily position it vertically or horizontally. This means that with its help you can easily make both a YouTube video and a short material for social media.

Universal compatibility

The selfie stick is compatible with most models of smartphones and cameras from well-known brands. It is equipped with a suitable adapter, and the kit additionally includes a special phone holder. It doesn't matter what equipment you use - now you can easily create plenty of great shots! Note: the remote control is compatible only with smartphones and GoPro Hero 11 / 10 / 9 / 8 / MAX sports cameras.
