

## TELESIN Power grip selfie stick (With power bank) TE-CSS-001

Ref: 6974944460739

TELESIN Power grip selfie stick (With power bank) TE-CSS-001

Selfie-stick with USB-C powerbank Telesin for sports camera / smartphone TE-CSS-001

Record for a long time, get an original perspective and be sure that your camera will not refuse to serve you at the least opportune moment. Selfie stick Telesin TE-CSS-001 can also act as a powerbank - it supports fast charging and stands out with a capacity of 10,000mAh. It unfolds to a length of up to 90cm and allows you to charge 2 devices simultaneously. It also features IP52 water resistance.

### Capacity of 10,000mAh

The capacity of the powerbank is 10,000mAh, which means you can enjoy about 5 times the runtime of regular batteries. This translates to up to 5 hours of uninterrupted 5.3K/30FPS video recording! No longer do you have to worry about your camera draining too quickly and preventing you from creating perfect shots.

### Fast charging

No more waiting indefinitely for your devices to be ready to use. The powerbank offers up to 18W of power and supports such fast charging standards as QC and PD3.0, so it will renew the power of your camera or smartphone in no time! The product also supports an input power of 18W, which allows you to charge it in a short time. Information about the status of the powerbank's battery while charging

will be provided to you by built-in indicators.

#### Charge 2 devices at the same time

With the TE-CSS-001 powerbank you can conveniently charge up to 2 devices at the same time. The product is equipped with a spring-loaded USB-C cable and a USB-C port, so it will power not only the camera mounted on it, but also your phone, for example. Note: when using the cable and the USB-C port simultaneously, fast charging is not possible.

#### Expandable selfie stick

Get even more options for recording original footage. You can adjust the length of the selfie stick from 21.6-90cm, so you can easily take the perfect selfie against a beautiful landscape or fit your friends into the picture. What's more, the accessory is equipped with an ergonomic handle that fits perfectly in your hand and doesn't slip out of it.

#### Thoughtful design

Take the device to the mountains, skiing or in the woods without worry. The powerbank is distinguished by its IP52 water resistance, which means that it is not intimidated by snow or rain. Dust also poses little threat to it. Another advantage of the product is the 1/4" hole located on the bottom, which allows mounting additional accessories, such as a tripod (sold separately).

#### Wide compatibility

Bet on universal solutions. The powerbank is compatible with most models of smartphones, sports cameras, 360° cameras and mirrorless cameras from well-known brands. You'll also find an additional adapter and a phone mount included, so you can easily mount the device of your choice. Say goodbye to limitations - with Telesin you get even more opportunities to record original video footage!
