

## Headlight Superfire HL25, 700lm, USB-C

Headlight Superfire HL25, 700lm, USB-C

Ref: 6974760351792

### Superfire HL25 headlamp flashlight

The Superfire HL25 headlamp is distinguished by its brightness level of 700 lm, and its maximum illumination range is 210 meters. It offers 8 light modes and allows you to adjust the angle. It is also equipped with an intelligent detection function, and its operating time reaches 6.5 hours. Also noteworthy is its waterproof (IP43) design and resistance to drops of up to 1 meter.

### Reliable source of light

Ensure your safety after dark. The flashlight guarantees stable illumination with a brightness of 700 lm. Its maximum illumination distance is 210 meters, so you can be sure that the flashlight will easily light your way. Thus, HL25 will be perfect for many situations. It will illuminate your route during a night climb or hike, and you can also use it while repairing your car, cycling or camping.

### As many as 8 light modes to choose from

The Superfire headlamp flashlight will work great in almost any situation. The device allows you to adjust the light output. There are also 8 light modes at your disposal, so you can easily adjust its operation to your needs. You can choose from Low, Medium, Strong, Strobe, Auxiliary, Main and Auxiliary, Red or Red Strobe modes. What's more, it has a special sensor that allows you to turn the flashlight on and off without touching it - just wave your hand within its range!

Up to 6.5 hours of operation

The 1200 mAh battery provides up to 6.5 hours of operation. You can conveniently charge it with the included USB-C cable. In addition, a colored light indicator will let you know the charging status - red means charging, while blue means the flashlight is ready for use.

Works well in all weather conditions

The L16-T was created with various usage situations in mind. The product is distinguished by its IP43 water resistance rating. So you can easily use it in the rain or a snow blizzard. High-quality materials were used in its construction, making it extremely durable - it is not afraid even of falls from a height of 1 m.
