

Headlight Superfire HL31, Type-C

Headlight Superfire HL31, Type-C

Ref: 6974760350450

Superfire HL31 headlamp flashlight

The Superfire HL31 headlamp flashlight guarantees optimal illumination with a brightness of 2200 lm and a range of 330 m. It is equipped with batteries with a total capacity of 8000 mAh, which allow up to 9 hours of continuous operation. It offers 4 lighting modes, and allows you to adjust the light output and position of the lamp. It is also waterproof (IP44) and more than durable.

A reliable source of light

The Superfire HL31 headlamp flashlight provides stable and even illumination with a brightness of 2200 lm. Its maximum light distance is 330 meters, so it will illuminate your path brilliantly. You will use the flashlight, for example, while hiking or running training after dark, as well as repairing your car.

Choose from 4 light modes

Now you can adjust the flashlight's performance to almost any situation. The flashlight offers up to 4 light modes. Low, Medium, Strong and Strobe modes are available. To change the mode, just hold down the dedicated button for about 2 seconds. You can also freely adjust the angle of the lamp and adjust the light output.

Durable design

Worried that the flashlight will get damaged in heavy rain? Don't be! The HL31 is IP44 waterproof, so you can use it in virtually any conditions without any problems. High-quality materials were used to make the flashlight, which are characterized by exceptional durability and wear resistance. Carefully thought-out design ensures that the device does not slip off the head.

Long working time

You don't have to worry about the flashlight discharging in a few moments. The device can work for up to 9 hours. You can easily charge it with the USB-C cable included in the package. After just 6.5 hours, the flashlight will be ready for use again. Special light indicators will inform you about the battery charge level.
