

Headlamp Superfire HL05-E, 120lm, USB

Ref: 6974760350429

Headlamp Superfire HL05-E, 120lm, USB

Superfire HL05-E headlamp flashlight

The Superfire HL05-E headlamp is distinguished by an illumination power of 120 lm. It offers 5 light modes and a smart detection function, and has a maximum run time of 5 hours. You can charge it with a USB cable, and the color of the light will notify you of the charging status. Also noteworthy is its small and waterproof (IP44) design, which guarantees comfort during use.

Tailored to your needs

You can easily adjust the operation of the device to your needs. The flashlight offers up to 5 different light modes - strong light, medium light, light light, Strobe and SOS. You can easily change the mode using the dedicated button on the top of the housing. What's more, it has a smart detection function - just wave your hand within range of the flashlight to trigger it!

Convenient charging

Use the Superfire flashlight for up to 5 hours. When needed, you can conveniently charge it using the USB cable included in the kit. You will be informed of the charging status by the color of the light - red means charging, while when blue lights up, the device will be ready for use again. The charging itself takes about 2 hours.

Multiple uses

The HL05-E headlamp will be great for many situations. Among other things, you will use it during an evening running workout, mountain hiking or cycling after dark. You can also use it when repairing your car or performing minor maintenance work. Your possibilities are almost endless!

Created with the user in mind

The flashlight's compact size, light weight and adjustable head strap provide unparalleled comfort during use. It is resistant to water (IP44) and dust, so you can use it even in the rain without worry. You can also adjust the angle of the light.
