

Gaming Keyboard Delux KM17DB (green&red)

Gaming Keyboard Delux KM17DB (green&red)

Ref: 6938820413844

Delux gaming keyboard KM17DB (green-red)

Enjoy long-lasting comfort during your favorite gameplay. The Delux KM17DB mechanical gaming keyboard features an ergonomic design and is additionally equipped with a wrist rest. It connects to a compatible device in 3 ways, and features yellow Gateron G Pro switches. It also offers RGB backlighting and long battery life - charging will be facilitated by the included USB-A to USB-C cable.

Several connectivity options

For greater freedom of use, you can connect the Delux Gaming Keyboard to a compatible device in 3 ways: via Bluetooth 5.0, USB-C cable or in the 2.4G band. What's more, the product supports devices running Windows 7/8/10 and macOS operating systems.

Durable battery

Forget about tangled cables on your desk. The Delux gaming keyboard is equipped with a durable 2000 mAh lithium-ion battery. Thanks to this, the KM17DB works on a single charge for about 3 days (with the backlight on) or about 25 days - if you don't use the backlight. A USB-C cable is also included for easy charging of the device.

Convenience of use

The keyboard was designed with e-sports enthusiasts in mind. The ergonomic design of the device allows you to use the KM17DB

comfortably, and the magnetic support prevents wrist pain. You can also detach it at any time if you don't need it.

Thoughtful design

That's not the end of the Delux KM17DB's advantages. The keyboard is equipped with yellow Gateron G Pro switches, which are distinguished by moderate pressure of 50g and quiet operation. Thanks to them, the product will perform well during gaming and work. Moreover, the use of special foam significantly mutes the sound of the pressed keys, and RGB backlighting gives the model a gaming character. In addition, the device offers functions: N-key rollover and macro programming.
