

## Powerbank / Jump starter Lokithor J401 - 2500A 12V 74Wh

Ref: 6928493308325

Powerbank / Jump starter Lokithor J401 - 2500A 12V 74Wh

Powerbank / Jump starter Lokithor J401 - 2500A 12V 74Wh

Lokithor J401 is a practical device that will be useful in almost any car. You will use it as a jump starter - it is suitable for gasoline engines up to 8.5 l and diesel engines up to 6.5 l. The product is also distinguished by its 74 Wh capacity and 2500 A peak current. It is also equipped with a flashlight, which will make it easier to use the device after dark. What's more, you'll find a 12V adapter and 2 cables: USB-A to USB-C, and USB-C to USB-C.

### Durable battery

The Jump starter Lokithor is equipped with a 74 Wh battery, which translates into a long runtime. On a single charge, it allows you to start your car engine about 60 times. Moreover, the device remains in standby mode for about 24 months and consumes only 0.21 mAh. As a result, you don't have to worry about charging the product too often.

### Fast charging

The product also acts as a powerbank, which means that you will renew the energy of your smartphone or tablet with it. After about 3 minutes, the J401 will be ready for use. It is equipped with a USB-C port that charges at 100W max, and a USB-A port that uses 18W. As a result, after about 1.25 hours your equipment will be ready to work again.

### A range of security features

The Lokithor J401 is equipped with a number of safety features, so you can be sure that using it is completely safe. The product has protection against overload, short circuit, overvoltage, reverse polarity, overcharging, high/low temperature, etc.

### Built-in display

The Lokithor Jump starter has an easy-to-read 3.75" display for convenient access to information. From it, you can read reverse polarity or high/low temperature warning or voltage value. What's more, it also offers a fast charging indicator.
