

Wall charger LDNIO A1307Q 18W + Lightning cable

Ref: 5905316141575

Wall charger LDNIO A1307Q 18W + Lightning cable

LDNIO A1307Q 18W network charger + Lightning cable

Fast and convenient charging will provide you with the LDNIO network charger. The product is distinguished by its power level of 18W and supports QC 3.0, so you can replenish your devices in a short time, thus affecting the life of their batteries. The charger is made of high-quality materials, and the built-in chip is responsible for a number of electrical protections in it. It stands out for its wide compatibility, and you will also find a Lightning cable included.

Multi-level protection

The product is equipped with a smart chip that constantly controls the voltage, so you don't have to worry about your devices being harmed by short circuits, alternating current or other electrical hazards. What's more, fireproof polycarbonate is used to make the charger, which effectively dissipates excess heat, so you can rest assured that no device will overheat.

Wide compatibility

The charger works with devices from most well-known manufacturers, with support for QC 3.0 fast charging protocols, ensuring an adequate supply of power to your devices. It is lightweight and handy, and the careful finish gives it a unique, elegant style. Fast charging of your devices will be enabled by the Lightning cable you'll find included.

Included
AC charger
