

## Wall charger LDNIO A1405C USB-C 40W + USB-C - USB-C

Ref: 5905316141612

Wall charger LDNIO A1405C USB-C 40W + USB-C - USB-C

LDNIO A1405C USB-C 40W mains charger + USB-C - USB-C cable

Don't waste your time waiting! This handy mains charger will take care of your devices' batteries and charge them in an insanely short time. LDNIO A1405C is distinguished by its power level of 40 watts and supports fast charging protocols. The product offers wide compatibility - it is equipped with a USB-C port, and plugging in your phone or laptop will make it easier for you with the included cable. Robust construction and multi-level protection will ensure complete protection of your equipment. What's more, the charger features a modern, compact design and will work well on any trip!

### Instant device charging

The charger features a USB-C port, and it also comes with a USB-C - USB-C cable to make charging your devices easy. The port supports the QC4+ fast charging protocol, so you'll replenish your batteries in no time, extending their life.

### Robust design

LDNIO A1405C is made of high-quality polycarbonate, which effectively dissipates high temperatures and is resistant to damage. What's more, additional electrical protection will provide multi-level protection for your charged devices, so you don't have to worry about short circuit, overheating, or alternating current. It is worth noting the modern design of the charger, which gives it an unparalleled character.

#### Wide compatibility

The product works with equipment from most well-known manufacturers, and the universal USB-C port will ensure that you can safely charge your devices at up to 40 watts. You don't need to take multiple chargers on the go - all you need is the LDNIO A1405C.
