

Filters x3 set PolarPro VIVID for DJI Mavic 3 Classic

Filters x3 set PolarPro VIVID for DJI Mavic 3 Classic

Ref: 817465028759

PolarPro Mavic 3 Classic filters x3 set - VIVID

Create even more beautiful aerial shots. The Vivid Collection set includes 3 ND-PL filters (ND8/PL, ND16/PL and ND32/PL) designed for the DJI Mavic 3 Classic drone. With these, you can reduce the shutter speed and get stunning results even in difficult lighting conditions! High-quality CinemaSeries glass and lightweight yet durable aluminum were used for the accessories. All filters come in a box with a magnetic closure.

Create spectacular shots

The included ND-PL filters combine 2 effects - ND and polarization. As a result, they allow you to shorten the shutter speed and reduce flare. As a result, you can enjoy vivid, crisp colors! ND8/PL filter (3 stops) is perfect for recording during golden or blue hour. ND16/PL filter (4 stops) will come in handy for you especially in the morning and evening. Are you going to film in the middle of the day when it's brightest outside? Choose an ND32/PL (5 degrees) filter.

Superior build quality

The filter frames were created from durable, yet extremely lightweight aircraft aluminum. As a result, they do not weigh down the drone and do not negatively affect its flight time. What's more, high-quality CinemaSeries glass was used to make the accessories, which guarantees fantastic clarity and stands out for its low refractive index. All filters are placed in a practical box with a magnetic closure,

which makes them much easier to store and transport.

In the box

ND8/PL filter

ND16/PL filter

ND32/PL filter

Storage box

Brand

Polarpro

Model

M3C-VIVID

Type of filters

ND-PL

Material

Aerospace aluminum + CinemaSeries glass

Compatibility

DJI Mavic 3 Classic
