Haylou TWS Lady Bag Headphones, ANC (blue)

Experience how good your favorite tunes can sound. The Haylou Lady Bag headphones will provide excellent sound quality, while the ANC active noise cancellation technology allows you to fully focus on the sounds of your music. They also allow you to make phone calls freely thanks to built-in microphones. Bluetooth 5.2 technology is responsible for a stable and reliable connection, and they have a maximum operating time of up to 20 hours (with charging case). The ergonomic design of the headphones guarantees dreamlike comfort, and their operation will be facilitated by built-in touch panels. The stylish and unique design of the case resembling a small handbag will delight many users.

Dream sound quality

Now in your own room you can feel like at a music festival. High-quality dynamic drivers with special tuning and vocal optimization help Haylou Lady Bag achieve spectacular sound quality. In addition, the advanced ANC technology perfectly suppresses any outside sounds up to 35 dB, so you can fully immerse yourself in the world of music.

Make phone calls freely

Talk on the phone no matter where you are. The headphones feature a precision microphone that reliably records your voice while filtering out most of the unnecessary background noise, so you can be sure that your callers will hear everything you have to say to

them.

Up to 20 hours of operation

Listen to your favorite songs without limits. The headphones can play music continuously for up to 5 hours on a single charge. You can also extend that time to as much as 20 hours with the charging case you'll find included. This is long enough to watch 3,500 short videos on Tik Tok or listen to 300 songs.

Reliable signal transmission

Forget about interference, lag or other connection problems! Haylou headphones use a state-of-the-art Bluetooth 5.2 connection, which ensures a fast and stable connection to the selected device. Making them work is extremely easy and won't cause you any problems - just take them out of the case and the headphones will automatically connect to the last paired device.

Quick access to the most important functions

Conveniently control your headphones without having to pull out your smartphone! The Haylou Lady Bag features intuitive touch panels for easy operation. This allows you to quickly answer / disconnect calls, control the music player or switch between available modes. In addition, the control is done by pinching the handset to avoid accidental touching. In addition, the headphones will intelligently detect if you have them in your ears - just take them off and the music will automatically stop. Control is easier than you think!

Created for your convenience

With the Haylou Lady Bag, you can listen to music for up to several hours without worrying about fatigue or discomfort. The lightweight and compact design makes the headphones almost imperceptible during use. The headphones fit perfectly to the shape of your ears, so they won't fall out. What's more, they are IP54-rated, so you can freely use them during everyday activities - they are not intimidated by sweat or rain.

Unique design

The earphone case is distinguished by its original and stylish design, resembling a small handbag. As a result, it will be a great addition to your everyday styling, and will allow you to stand out in the crowd.
