

Wall charger LDNIO A2421C USB, USB-C 22.5W + Lightning cabl

Wall charger LDNIO A2421C USB, USB-C 22.5W + Lightning cable

Ref: 5905316141957

LDNIO A2421C USB, USB-C 22.5W mains charger + Lightning cable

LDNIO A2421C USB charger is small in size and big in capability. You no longer have to wait indefinitely for your phone to charge. The product is distinguished by its power of as much as 22.5W, so it offers instant charging of two devices at the same time! Its sturdy construction and smart multi-level protection will take care of your charged equipment, which you can connect via the Lightning cable included in the kit.

Instant charging

The charger gives you two ports - USB and USB-C, each supporting fast charging protocols. A smart chip will automatically adjust the power supply, so you can replenish all your gear in no time.

Wide compatibility

LDNIO A2421C is a universal charger that supports popular fast charging protocols such as PD, QC 3.0, AFC, FCP, and VOOC. It accepts voltages of 100 - 240 V, so you can charge almost any device with its help, no matter what outlet you have access to. The charger is also distinguished by its modern design and compact design, so it will fit into any pouch or purse.

Multi-level security features

A built-in chip ensures a stable supply of power to your devices, and a number of electrical protections will take care of protection against hazards such as overcharging, short circuit, overcurrent, etc. What's more, the charger is made of high-quality materials. All this ensures that with LDNIO your equipment will be completely safe.
