

Wall charger LDNIO A2522C USB, USB-C 30W + USB-C - Lightning

Ref: 5905316142152

Wall charger LDNIO A2522C USB, USB-C 30W + USB-C - Lightning cable

LDNIO A2522C USB, USB-C 30W charger + USB-C - Lightning cable

You can charge 2 devices simultaneously with the LDNIO A2522C charger. It also supports fast charging protocols and has an LED display for convenient use. What's more, the use of fire-resistant PC ensures safe use. Plus, thanks to its lightweight and ergonomic design, you can carry it almost always with you.

Convenient charging

The charger is equipped with USB-A and USB-C ports, so you can charge your smartphone and tablet simultaneously, for example. It also supports such fast charging protocols as PD/QC3.0/SCP/FCP/VOOC/PE/PPS, allowing you to save time. As a result, you will renew your iPhone's energy up to 65% in about 30 minutes.

Safety of use

LDNIO A2522C was made of fire-resistant PC plastic, making it durable and safe to use. Moreover, it is equipped with protection against overcurrent, overvoltage, overcharging, overheating, short circuit, electromagnetic field, etc. In addition, it supports voltage in the range of 100-240V, so you can also use it abroad.

LED display

Stay up to date! LDNIO A2522C charger is equipped with an LED display, which will provide you with the most important information about the operation of the device. From its level you will read the current value of voltage and amperage.
