LDNIO Bluetooth FM Transmitter C704Q 2xUSB, USB-C + USB-C/USB-C cable

The LDNIO C704Q transmitter is an ideal choice for people who want to be able to quickly charge their devices and listen to music in the car. It offers high-quality audio transmission over the radio band, connecting to the audio source via Bluetooth 5.0. What's more, it supports fast charging protocols and features an easy-to-read LCD display. It also allows the use of a USB drive and TF memory cards. A USB-C/USB-C cable is included in the package.

### High-end audio

Getting ready for a long car trip? Take the transmitter with you! Just put it in the power socket and connect it to your smartphone via Bluetooth 5.0, and you'll get music playback. What's more, the product supports audio transmission of incoming calls, so you can safely talk on the phone while driving.

### High charging performance

The product features a high-performance chip that allows you to quickly charge your devices via QC4.0+, QC3.0, PD, PPS, SCP and MTKPE+ protocols. The maximum power of 30 watts ensures high efficiency of the charger, allowing you to replenish the energy of your devices in no time - even 3 devices at once.

### Thoughtful design

The C704Q offers 2 USB ports and 1 USB-C, making it compatible with a wide range of devices. What's more, it uses a number of protections, including against short circuit, high temperature, over-charging and over-discharging, excessive voltage or electromagnetic fields. A built-in LCD display provides convenient access to relevant information. The transmitter also allows connecting a USB drive or TF memory card.
