Ref: 5905316144422

Wall charger LDNIO A2317C USB, USB-C 30W + USB-C - USB-C Cable

LDNIO A2317C USB, USB-C 30W Power Charger + USB-C - USB-C Cable

Need a compact charger that allows you to quickly charge two devices at the same time? Opt for the A2317C model from LDNIO. The device features two ports - USB and USB-C, and comes with a USB-C/USB-C cable. You'll be surprised at how efficiently you'll charge compatible smartphones and tablets thanks to 30W PD and QC3.0 fast charging protocols.

Quickly charge 2 devices simultaneously

Experience how quickly you can renew the energy of your devices. The LDNIO charger supports 30W PD fast charging and QC3.0, and can charge your iPad and iPhone 14 Pro Max with up to 27W of power. What's more, it is compatible with many popular devices that have USB and USB-C ports. You can successfully connect iPhones and Android-based smartphones to it.

Refined design

The A2317C is distinguished by its compact construction and modern design. You can easily fit the device into your purse or backpack and take it with you anywhere. You no longer have to worry about your smartphone discharging at the least opportune moment.

Safe charging

The charger is made of fire-resistant PC shell, increasing the safety of use. Thanks to multiple safety features, you don't have to worry

about overvoltage, overcharging, short circuit or overheating, among other things. Safely renew the energy of your devices with the LDNIO charger.
