TWS Acefast T6 Headphones (navy blue)

The Acefast T6 headphones will make listening to music even more enjoyable. They feature 4 microphones with ENC noise cancellation, so the quality of your calls will be perfect. The headphones provide up to 4 hours of operation, and the built-in digital display will inform you about the battery charge status. Bluetooth 5.0 is responsible for a reliable connection. Their operation will not cause you any problem, and the touch panels will allow you to control them conveniently - with their help you can efficiently answer a call or change a song without reaching for the phone!

Up to 20 hours of music listening

Listen to your favorite songs almost without limits. The headphones provide up to 4 hours of uninterrupted music listening or up to 3 hours of phone calls (70% volume). You can extend this time to as much as 20 hours with the charging case. Its capacity is 500 mAh, so you can charge the headphones TB up to 4 times. What's more, the device supports fast charging, so you only need 10 minutes of charging to enjoy your music for another 1.5 hours!

Bluetooth technology

The T6 features a high level of synchronization, making them ideal for gaming enthusiasts. The Acefast headphones will enable smooth gaming without interference - Bluetooth 5.0 guarantees perfect transmission at a distance of up to 10 meters. You can also choose from

2 modes: Stereo and Single, which makes each headphone connect to the selected device independently.

Convenient operation

No more need to pull out your phone to change a song! The headphones are equipped with touch-sensitive panels that will make it easy for you to operate them. Using them, you can manage incoming calls, activate the voice assistant, adjust the volume, and change songs - with just a few touches!

Created with the user in mind

The T6 headphones stand out not only for their functionality, but also for their stylish and modern design. The set comes with a silicone case, which adds to its character and perfectly protects the case from scratches. Another advantage is the small size and IPX4 protection rating, so you can use them in any conditions. In addition, the headphones are extremely comfortable, so you can use them even for long periods of time without any discomfort or fatigue.
