Extension cord with one AC socket LDNIO SC1017, EU/US, 5m (white)

Ref: 6933138700259

LDNIO SC1017 single socket AC extension cord, 5m (white)

The LDNIO SC1017 AC extension cord will allow you to conveniently use any outlet, no matter where you go. Its power rating is 2500 watts, so it will successfully handle almost any home appliances. What's more, the extension cord has a universal plug, suitable for outlets of different standards, so it will be great for traveling. The long 5m cable with a reinforced core ensures optimal power supply to your devices.

Safe use

High-quality materials have been used to make the cable. The copper core has been thickened and reinforced, as well as coated with a triple insulation layer of fire-resistant PVC. What's more, to increase the safety of use, the cable has a number of electrical protections, such as overcurrent, overload, overvoltage, and electromagnetic field protection.
