LDNIO DL-C29 car charger, 2x USB, 3.4A + Micro USB cable (white)

LDNIO DL-C29 car charger, 2xUSB, 3.4A + micro USB cable (white)

Get ready for the road. LDNIO's car charger is equipped with 2 USB ports and features a power output of up to 17 watts. The DL-C29 is widely compatible with a wide range of devices and provides a number of safety features. It is made of high-quality, robust materials. The set comes with a 1m micro USB cable.

Charge 2 devices simultaneously

You don't have to limit yourself anymore. Conveniently charge up to 2 devices simultaneously while traveling by car. The LDNIO charger offers 2 USB ports and works with up to 17 watts of power. With its help, you can successfully power iOS and Android-based smartphones, as well as tablets, MP4s and more.

Safely charge your equipment

Renew the power of your devices without worrying about their safety. The DL-C29 is distinguished by its high performance and provides protection against voltage, short circuit, overheating or electromagnetic interference, among others. What's more, it supports the Auto-ID function, so it intelligently recognizes the connected device and adjusts the charging power to it.
