

Computer case Darkflash DLM21 Mesh (pink)

Computer case Darkflash DLM21 Mesh (pink)

Ref: 4710343791515

Darkflash DLM21 Mesh computer case (pink)

If you are looking for a computer case that will impress you with its stylish design and allow you to expand your hardware with a number of functional components, the DLM21 Mesh will be a real hit! The mesh front and the tempered glass side panel provide a convenient overview of the PC interior, while the magnetic design provides easy access and easy replacement of parts. The internal cooling channel and the possibility of installing additional components eliminate the problem of overheating of the hardware. Among other things, the case has a USB 3.0 port.

Carefully considered design

You no longer need to use tools to remove the case and replace parts. You can conveniently open the magnetic side panel whenever you need. Made of tempered glass - it provides an excellent view of the individual components of your computer, as does the mesh pattern on the front. All this also makes it possible to achieve excellent lighting effects. The product is also distinguished by an excellent texture, which is provided by the painted 0.6mm SPCC steel.

Optimal solutions - efficient cooling

Don't be afraid of computer cooling problems. The product is compatible with various types of components. For example, you can successfully install 2 120/140mm fans for air cooling and a water cooling. In total you can install up to 6 fans! The case is also equipped

with an internal cooling channel.

Wide expandability

This is not the end of your possibilities though! The wide compatibility of the model and its user-friendly design make it easy for you to expand or upgrade your computer. Among other things, the case supports the installation of SSD / HDD hard drives or a 210mm power supply.

USB 3.0 compatibility

Discover the advantages of high-speed USB 3.0. The matching port located on the top of the case will provide you with even more convenience. It is also backward compatible with USB 2.0 and comes with USB 2.0 ports, microphone input and headphones / speaker output, so you can customize it to your needs and create the perfect PC for you!
