

Dash camera Hikvision D1 1080p/30fps

Ref: 6931847175740

Dash camera Hikvision D1 1080p/30fps

Hikvision D1 1080p/30fps video recorder

Take care of your safety on the road. The Hikvision D1 video recorder records footage in 1080p quality and the built-in Wi-Fi module is responsible for a reliable and fast connection to the device. You can conveniently manage footage and change DVR settings using the app. You don't have to worry about losing key footage either - the device has a G-Sensor. The device supports SD cards with a capacity of up to 128 GB.

Superb image quality

The D1 video recorder provides amazing image quality. The device allows you to record footage in up to 1080p resolution. What's more, it is compatible with SD memory cards with a maximum capacity of up to 128GB. So you can rest assured that your footage is secure.

Don't worry about losing important footage

Are you worried that the video recorder did not capture the moment of the collision? Don't be! The device has a built-in high-precision G-Sensor, which intelligently detects a bump or violent shock caused, for example, by sudden braking. What does this mean? When it detects such a situation, it automatically records the video footage and backs it up. This way you will never lose important recordings again! Parking mode is only available when connected with a power cable (not included).

Built-in Wi-Fi

Pairing your device is easier than you think. The video recorder is equipped with a Wi-Fi module, which is responsible for a fast and stable connection. This allows you to connect it directly using the app and view live video on your smartphone or adjust the settings to suit your needs. Forget about complicated configurations!

Use the app

Want to gain access to all the device's functions? Download the app HikDashcam and make your DVR easy to use. With the app, you can freely play back the recording and set the parameters to suit your needs. You will also gain access to the live view. The D1 also has a built-in microphone and loudspeaker.
