

Water Cooling Darkflash DC240 ARGB 2x 120x120 PC 2x 120x120

Ref: 4710343795179

Water Cooling Darkflash DC240 ARGB 2x 120x120 PC 2x 120x120 (Black)

Darkflash DC240 water cooling

Have confidence that your computer will meet any challenge and not overheat. Darkflash DC240 water cooling uses 2 fans and is designed to dissipate heat efficiently. Its additional advantage is ARGB backlighting, thanks to which you can effortlessly achieve stunning visual effects. The device is compatible with Intel and AMD processors.

Hassle-free installation

Forget about problems with cooling installation. The DC240 is compatible with a variety of Intel and AMD processors, and installation is a breeze. You can also synchronize it with your motherboard (3 pin 5V connector). The device also has a PWM hub (with 3 ports - 1x PWM/FG, 2x PWM 3 pin or 4 pin). What's more, even if there is no corresponding port on the motherboard, you can still control the LED mode with the Reset button on the case.

Stylish, modern design

Take care not only of optimal cooling of your computer, but also of its modern, stylish appearance. The DC240 cooling unit features colorful ARGB backlighting for a fantastic look. Also noteworthy is the specially designed water block, which catches the eye with its original design on the case. Want to get even more interesting effects? Combine the cooling with other components with backlighting!

Improved fans

The cooling uses 2 fans (4 pin PWM, 5V A-RGB connectors), each equipped with 9 blades. They also feature high efficiency and surprisingly quiet operation, made possible by special anti-vibration pads. Say goodbye to loud, annoying noise! In addition, the fans support PWM function, which means that they can automatically adjust their speed depending on the CPU temperature.

Reliable cooling

Don't be afraid that your computer will overheat. The cooling has been equipped with a copper base that allows efficient heat dissipation. It also has an E-shaped water channel, which managed to increase the efficiency area of its operation. What's more, the DC240 uses high-performance ceramic bearings, an efficient, corrosion-resistant pump and 2 densely woven braided pipes. All this has made it possible to significantly increase its efficiency and extend its service life.

In the box

Water cooling

Intel & AMD mounting kit

Set of screws

Thermal conductive paste

PWM connector

User Manual

Brand

Darkflash

Model

DC-240 ARGB

Cooling type

Water

Color

Black

Dimensions of heatsink

274 x 120 x 27mm

Dimensions of water block

71 x 66,5 x 45mm

Pipe length

400mm

Rotational speed

3200RPM \pm 10%

Maximum noise level

16-30.15dBA

Rated voltage

12V

Starting voltage

\geq 6V (power on/off)

Maximum rated current

0.60A

Maximum power consumption

7.20W

Number of fans

2

Fan dimensions

120 x 120 x 25mm

Fan speed

800-2000RPM \pm 10%

Airflow

84.2CFM \pm 10%

Illumination

Yes

Compatibility

Intel: LGA 115x / 20xx (V3) / 12xx / 17xx;AMD: AM5 / AM4 / AM3(+) / AM2(+) / FM2 / FM1;

TDP

286 W

Price:

€ 72.00
