Colmi C61 smartwatch (black)

Do you want to take care of your fitness? Or are you looking for a versatile smartwatch that is perfect for everyday use? The C61 model by Colmi will prove to be a real hit! The device offers more than 100 different sports modes, and can also monitor sleep, heart rate and blood oxygen saturation. Its convenient operation is enabled by a large 1.9" touchscreen display. The smartwatch also lets you talk on the phone and is IP67 waterproof.

Large IPS HD display

Enjoy comfortable operation of the smartwatch. Colmi C61 is equipped with a large 1.9" display, which was created with durable 3D glass and provides a bright, clear image in almost any conditions. What's more, the device is distinguished by narrow bezels (0.8mm) and an impressive screen-to-body ratio of around 95%. You can also customize the look of the smartwatch to your liking by choosing from more than 150 available dial designs or uploading your photo.

Reliable performance - long operating time

An improved RTL8762D chip is responsible for the smartwatch's efficient and stable operation. In addition, the C61 uses Bluetooth 5.1, which ensures fast, reliable transmission and low power consumption. Also noteworthy is the device's large memory, which easily accommodates 5 types of user interface and as many as 28 dial designs. An additional advantage of the watch is its long operating time,

which reaches 7 days with normal use or 15 days in standby mode.

Stay connected

With Colmi you don't have to worry about missing something important. The C61 smartwatch will instantly notify you of incoming messages and notifications. To read them, just lift your wrist! The device will also let you talk on the phone - it has a built-in speaker and microphone. With its help you can easily answer an incoming call, hang up or call back the number stored in the watch's register.

Workout effectively

The smartwatch will also help you plan your next workouts. The C61 counts steps and calories burned, it also measures distances traveled and monitors your heart rate during exercise. There are also more than 100 sports modes at your disposal. Biking, basketball, running, badminton? Choose your favorite sport or try something new! With Colmi you can conveniently track your progress and set goals to achieve.

Take care of your health

Keep your hand on the pulse and find out immediately about any worrying symptoms. This will help you react to them in a timely manner! Smartwatch C61 can measure your heart rate even around the clock, it also monitors sleep. With its help you will better understand the workings of your biological clock, eliminate bad habits and finally start getting enough sleep! The device also allows you to monitor your blood oxygen saturation.

Perfect for everyday use

The Colmi C61 smartwatch is not only functional, but also extremely light and comfortable. You can have it on your wrist even all day long without worrying about discomfort! The device is also distinguished by its IP67 water resistance. You don't need to take it off your hand when washing dishes, exercising or leaving the house in the rain - it is not afraid of water drops, sweat or accidental splashing! At the same time, the smartwatch looks incredibly stylish - it is sure to appeal to many users.

Smart assistant on your wrist

With Colmi C61 everything you need is at your fingertips. The smartwatch allows you to conveniently use the help of an intelligent voice assistant. This means that with just a few words you can, for example, call a friend, check the current weather forecast, play your favorite playlist or find out what time it is. The possibilities are almost endless!
