

Wireless induction charger LDNIO AW004, 3x USB + USB-C, 32W

Ref: 6933138600306

Wireless induction charger LDNIO AW004, 3x USB + USB-C, 32W (white)

LDNIO AW004 wireless inductive charger, 3x USB + USB-C, 32W (white)

LDNIO AW004 is a wireless inductive charger that allows you to connect 5 devices simultaneously. It offers a USB-C port, 3 USB-A ports and supports wireless charging. It is made of fire-resistant PC plastic and has a 1.5m cable.

Fast, convenient charging

The charger offers 4 ports and supports wireless charging, so you can connect as many as 5 devices to it at the same time. In addition, it supports PD 30W and QC3.0 fast charging protocols, so you don't have to wait indefinitely for your equipment to charge.

Thoughtful design

LDNIO AW004 is made of fire-resistant (up to 850°C) PC plastic. What's more, it has a number of safety features, so its use is completely safe. In addition, the color indicators will inform you about the device's status and make it easy to locate after dark.
