Ref: 6971619678079

Smartwatch Mibro Watch C2 Creamy white (Greece)

Mibro Watch C2 Creamy white smartwatch (Product can only be activated in Greece)

The Mibro Watch C2 is a versatile and lightweight smartwatch that offers plenty of useful features. It allows you to monitor your heart rate, sleep and blood oxygen saturation, and lets you choose from 20 sports modes. Its additional advantage is a large 1.69-inch display. The device can also act as an access card. The smartwatch's operating time reaches 7 days on a single charge.

Lightweight, comfortable, stylish

The smartwatch weighs only about 34g - you will hardly feel that you have it on your wrist. What's more, the device's strap is made of skin-friendly silicone. As a result, you can enjoy unparalleled comfort! At the same time, the C2 looks extremely stylish - it is distinguished by its modern, minimalist design.

HD 1.69" display

Enjoy convenient access to information and use smartwatch functions comfortably. The C2 is equipped with a large 1.69" display that allows for smooth, pleasant operation and provides a clear image in almost any conditions. Want to customize the appearance of the screen to suit your preferences? Choose from available dial designs or upload your own photo!

Health under control

Keep your hand on the pulse and keep your health under control. The smartwatch can measure your heart rate 24 hours a day, and if there are any worrying symptoms, it will notify you immediately. This way you can react right away! The device also monitors blood oxygen saturation and sleep. Make sure to develop the right habits and get a decent night's sleep!

20 sports modes

Take care of your fitness with Mibro. The C2 smartwatch counts steps and calories burned, and lets you choose from 20 sports modes. Running, biking, skipping, soccer or maybe badminton? Bet on your favorite sport or try something new! The device will make it easy for you to track your progress and set more goals to achieve. What's more, the smartwatch automatically detects running.

2ATM water resistance

What else makes the C2 smartwatch so good for everyday use? The device is water resistant at 2ATM, which means it's not intimidated by accidental splashes, sweat or rain. You don't have to take it off your wrist when you want to wash your hands, you're getting ready for a workout or you're out and it's just starting to rain!

Up to 7 days of working time

Use your smartwatch for up to a week on a single charge. The long-lasting battery provides up to 7 days of operating time with normal use or up to 30 days in standby mode (when the device is not in use and there is no connection to the app). Convenient charging of the watch is made possible by the included magnetic cable.

Access card function

You don't have to look for your access card every time anymore. Now all you need is your smartwatch! How it works. The C2 is equipped with a special tag to which the function of the card of your choice can be assigned. This will allow you to easily open the door with the help of the watch. Find out how convenient it is!

Your personal assistant

The smartwatch will immediately notify you of incoming messages and calls. You no longer have to worry about missing something important! You can also use the C2 to check the weather and set an alarm clock. You can also remotely control your smartphone's music player and camera. There is also a stopwatch function, timer and much more.
