Smartwatch Mibro Watch Lite (Greece)

Mibro Watch Lite smartwatch (Product can only be activated in Greece)

Take care of your health and fitness, enjoy convenient access to notifications and use a host of useful features. The Mibro Lite smartwatch offers 15 sports modes to choose from and can monitor heart rate, sleep and blood oxygen saturation. Its additional features include a 1.3-inch AMOLED display and a battery life of up to 10 days. The device also features a lightweight design and IP68 water resistance.

AMOLED 1.3" color display

Enjoy a comfortable and enjoyable smartwatch experience. The Lite model is equipped with a 1.3" AMOLED screen made of 2.5D glass, which provides beautiful, vivid colors and a bright, clear image even in strong light. Fingerprints won't be visible on it either. You can also customize its appearance to your liking. Choose from a myriad of available dial designs and give your watch a unique touch!

Ideal for athletes

The smartwatch weighs only 48g - you won't even feel that you have it on your wrist. What's more, its thickness does not exceed 9.8mm. It's so light and comfortable that you can use it every day without any problems - including during workouts. The device is also IP68 waterproof, which means that sweat, rain or splashing pose no threat to it. Its additional advantage is a stylish, minimalist design.

15 sports modes

Do you want to improve your fitness a bit? Or do you care about achieving better and better results in your favorite sport? The Mibro Watch Lite smartwatch will help you with that! The device counts steps and calories burned, and lets you choose from 15 sports modes, such as running, walking, yoga, badminton or free training, for example. You are sure to find something for yourself!

Long run time

Are you going on a bicycle trip? Or are you planning a multi-day trip? Do not be afraid that the smartwatch will refuse to serve you too quickly! The Lite model can serve you for up to 10 days with normal daily use. In standby mode, the device lasts about 40 days. Forget about the need to charge it frequently!

Take care of your health

Keep your hand on the pulse and find out about any worrying symptoms right away. The smartwatch allows you to measure your heart rate and blood oxygen saturation, and offers a sleep monitoring function. Eliminate bad habits and start getting enough sleep! The device will also let you check your stress levels and offers relaxing breathing exercises. What's more, you can find the information collected by the smartwatch in the Mibro Fit app.

Don't miss anything important

With Mibro you don't have to worry about missing any important information. The smartwatch will instantly inform you of incoming messages, notifications and calls - just glance at the display! The device is compatible with most popular apps such as Facebook, WhatsApp, Instagram, Twitter, Skype and many others.

Even more useful features

Mibro Watch Lite offers even more features that will come in handy on a daily basis. For example, it will be perfect as a stopwatch or alarm clock, and it will also remind you to move (when you sit in one place for too long) and drink water. You can also use the weather forecast and calculator. The smartwatch also allows you to remotely control your smartphone's camera and music player.
