Smartwatch Mibro Watch Lite 2 (Greece)

Mibro Watch Lite 2 smartwatch (Product can only be activated in Greece)

The Mibro Watch Lite 2 is a versatile smartwatch that will provide you with convenient access to notifications, allow you to make phone calls and help you take care of your fitness. It offers 60 sports modes to choose from, and allows you to monitor your heart rate or sleep. It is also distinguished by a color AMOLED display and 2ATM water resistance. The device has a runtime of up to 12 days on a single charge.

Ref: 6971619678253

Stay in touch

Is someone calling you? No longer do you have to take your smartphone out of your purse or pocket. Now you can answer the phone from the smartwatch! Are you busy and prefer to call back later? That's not a problem either - the Watch Lite 2 will allow you to quickly reject the call and send one of the default prepared messages. Now everything you need is at your fingertips!

Improved design

Enjoy the comfort of use. The smartwatch is exceptionally lightweight and comfortable, and its strap is made of soft, tactile leather. What's more, the metal casing ensures its durability and resistance to damage. At the same time, the device looks really good - it can be a fantastic complement to your everyday styling. It is also distinguished by its 2ATM water resistance - it won't be intimidated by sweat,

rain or splashes! The set also includes a silicone strap.

AMOLED color display

The smartwatch's built-in AMOLED display provides clear images and vivid colors even in harsh lighting conditions. The Watch Lite 2 also supports Always on Display, so you can check the current time at any time without pressing any buttons. Want to change the look of the screen? No problem - choose from a multitude of available dials and 3 menu designs.

Efficient operation

An innovative dual-core chip is responsible for the smooth and efficient operation of the smartwatch. Forget about stuttering or lags! The device is also distinguished by low power consumption, which translates into its long working time. An additional advantage of the Watch Lite 2 model is the 2.5D GPU module.

Working time of up to 12 days

Thanks to its long-lasting battery, the smartwatch stands out for its long operating time. With normal daily use, you can use it for up to 12 days on a single charge. In basic mode (no app connection), the device runs for about 60 days. The Watch Lite 2 also allows you to play music for about 7.5 hours or make phone calls for about 8 hours.

Taking care of your health

Keep your health under control and react quickly enough to worrying symptoms. The smartwatch can measure your heart rate 24 hours a day, with its help you can also check your blood oxygen saturation. Also noteworthy is the sleep monitoring function - thanks to it you will improve the quality of your night's rest. The Watch Lite 2 model will also prove useful as a menstrual calendar. It also measures stress levels and offers relaxing breathing exercises.

60 sports modes to choose from

Achieve better and better results in your favorite sport or try something new. The Watch Lite 2 smartwatch will help you take care of your fitness! It counts calories burned, measures distances traveled and offers up to 60 sports modes such as running, biking or skipping, for example. Have you finished another workout? Share its summary with your friends!

Additional features

This is not the end of the smartwatch's capabilities. Among other things, the device offers a calendar, timer, stopwatch and calculator. It will also work well as an alarm clock and allow you to remotely control your music player or smartphone's camera. You can also use it to check the weather. There's also a power saving mode, screen lock, password protection for the device, a do not disturb option and a feature to help you locate the watch. The Watch Lite 2 will also remind you to move.
